Month-end vendor payouts, done in minutes.

Software for antique malls and vendor malls: one place for the register, booth rent, commissions and vendor payouts. Every vendor gets a private link with their sales and balance, so they stop calling you to ask.

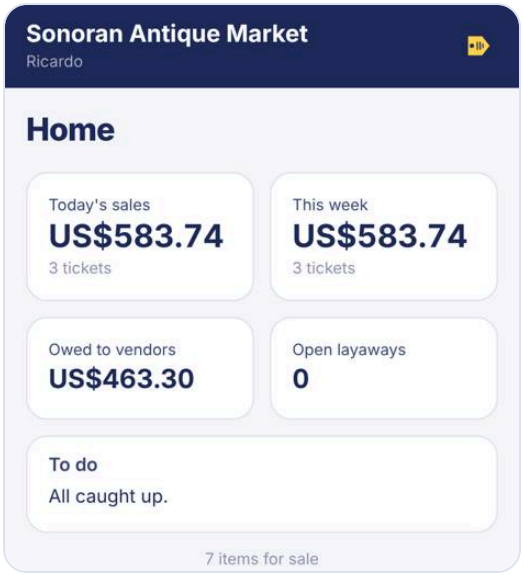

What it does

- **Scan and charge.** Sales tax is added and each vendor's share is split automatically, to the cent.
- **Booth rent on autopilot.** Charged weekly or monthly and taken out of the next payout.
- **Vendor payouts in one click.** Download a bank file, mark everyone paid, and each vendor is notified.
- **My Booth for every vendor.** Sales, rent and balance on their phone. No app, no password, no calls to you.
- **Year-end 1099 report.** What you paid each vendor, ready for your accountant.
- **A history nobody can edit.** Every price change, void and payout shows who did it and when.
- **Runs on what you have.** Phones, tablets and USB or Bluetooth scanners. Import vendors from a spreadsheet.
