Vendor statements and payouts, done in minutes.

Software for antique malls and vendor malls: booth rent, register, vendor statements and payouts in one place. Works with the Dymo printer you already own, keeps selling when the internet drops, and you can set it up in an afternoon.

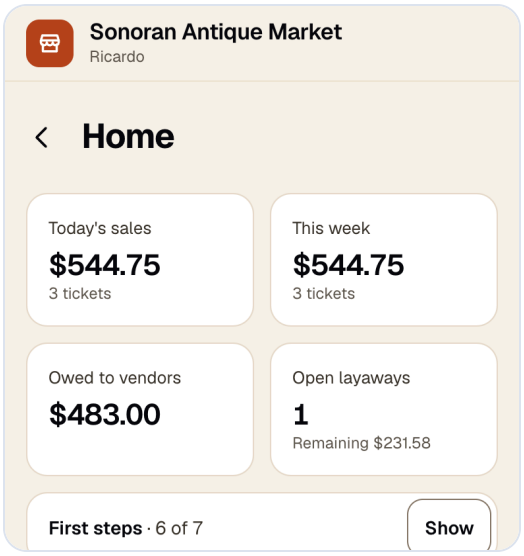

What matters to a mall owner

- ✓ **Prints on the labels you already buy.** Dymo 30252 and 30336, or Zebra 2×1 rolls, with a test sheet to line them up. Scan the barcode at the register and the sale is split to the cent, sales tax included.
- ✓ **Vendor statements, ready to hand out.** Sales, booth rent and net for each vendor, printable as a letter. Year-end 1099 report for your accountant.
- ✓ **Vendors serve themselves.** Each vendor gets a private My Booth link with sales, statements and balance on their phone. No app, no password, no calls to you. Unused links expire on their own.
- ✓ **Fill empty booths.** List your booths with their rent, add many at once, and share a public booth page and a QR poster for your door so people can ask for a booth.
- ✓ **Keeps selling when the internet drops.** The register works offline and catches up when you're back online. Refunds work even without the receipt.
- ✓ **Payouts in one click.** Rent comes out of the next payout automatically. Download a bank file, mark everyone paid, and vendors are notified.
- ✓ **Set up in an afternoon.** Import vendors from a spreadsheet, or connect ChatGPT or Claude and just ask it to set up your mall. Sign in with a link by email, help built into every screen.

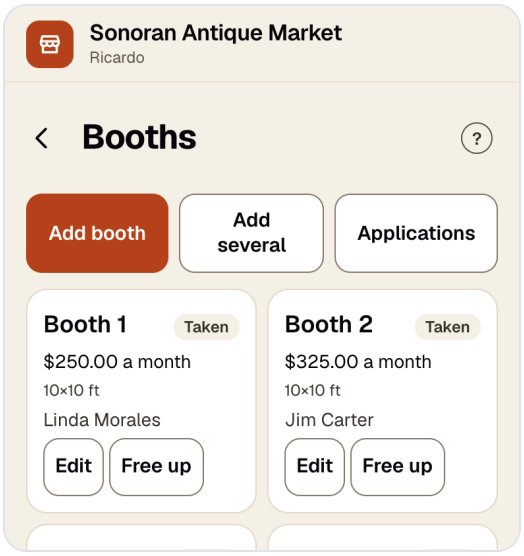

Plans

Basic	Pro	Plus
$79/mo	**$119**/mo	**$149**/mo
Up to 30 vendors	Up to 75 vendors	Unlimited vendors

Try it free for 14 days. Tap «Load demo» to see booths with rent, vendors and sales before you add your own. We can import your vendor list for you.

Owner home: today's sales and what you owe vendors

Booths with their rent: occupied, free and held
