Vendor statements and payouts, done in minutes.

Software for antique malls and vendor malls: register, booth rent, commissions and vendor payouts in one place. Works with the Dymo printer you already own, keeps selling when the internet drops, and you can set it up in an afternoon.

What matters to a mall owner

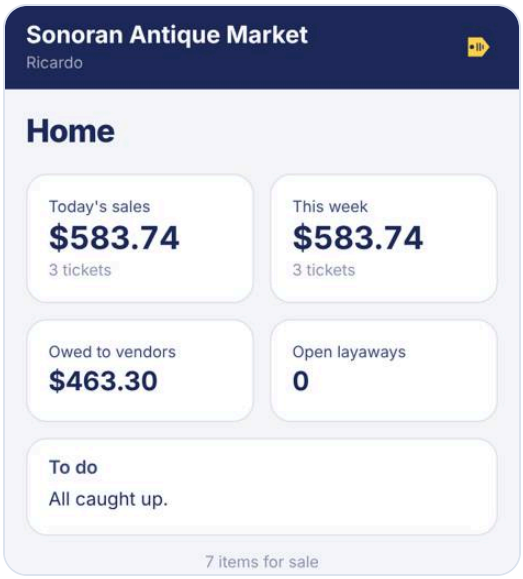

- ✔ **Prints on the labels you already buy.** Dymo 30252 and 30336, or Zebra 2×1 rolls, with a test sheet to line them up. Scan the barcode at the register and the sale is split to the cent, sales tax included.
- ✔ **Vendor statements, ready to hand out.** Gross sales, your commission, booth rent and net for each vendor, printable as a letter. Year-end 1099 report for your accountant.
- ✔ **Vendors serve themselves.** Each vendor gets a private My Booth link with sales, statements and balance on their phone. No app, no password, no calls to you. Unused links expire on their own.
- ✔ **Keeps selling when the internet drops.** The register works offline and catches up when you're back online. Refunds work even without the receipt.
- ✔ **Payouts in one click.** Rent comes out of the next payout automatically. Download a bank file, mark everyone paid, and vendors are notified.
- ✔ **Set up in an afternoon.** Import vendors from a spreadsheet, or connect ChatGPT or Claude and just ask it to set up your mall. Sign in with a link by email, help built into every screen.

Also: an edit history of every price change, void and payout · phones, tablets and USB/Bluetooth scanners · pick or change your plan yourself, card billing by Stripe.

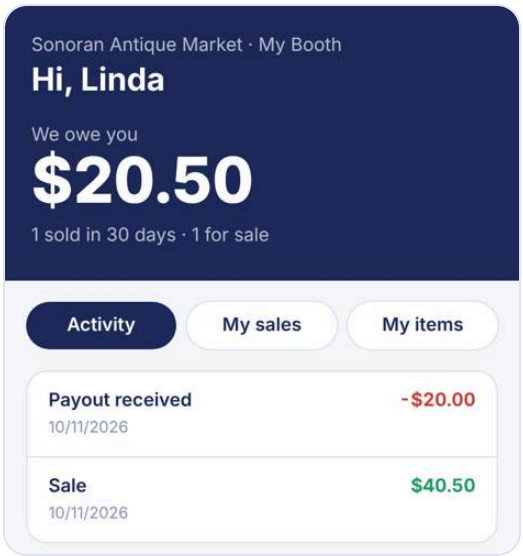

Plans

Basic	Pro	Plus
$79/mo	**$119**/mo	**$149**/mo
Up to 30 vendors	Up to 75 vendors	Unlimited vendors

Founding stores: free setup and training, first month free, and your price locked for 12 months, in exchange for honest feedback. We import your vendor list for you.

Owner home: today's sales and what you owe vendors

What each vendor sees on their phone
